

Outdoor Floor Stand Vertical

DS-OF Series

INTRODUCTION

Out-door digital displays are commonly used to transfer and announce visual information of products, services or other information to the public. Unlike traditional printed, static posters, digital poster allows you have dynamic contents such as multimedia files (GIFs, photos and videos). Out-door digital displays are designed for both indoor and outdoor environment. Anti-glare, tempered glass used in out-door digital display structure has made it fireproof, waterproof and dust-resistant.

FEATURES

- The shell is made of a 1.5mm galvanized sheet, anti-corrosion for over 5 years
- The waterproof of IP55 protection level
- The protective glass in front is made of 5mm
- Ultra-clear tempered glass.
- High brightness reaches 2000nits and the design life is 50000h
- The viewing angle is 178°
- The brightness of the display according to the ambient light

DS-OF Series

High Brightness

High brightness LEDs are widely used in various fields due to their advantages such as long lifespan, shock resistance, high efficiency, and good control over light sources.

SPECIFICATIONS

Product Name	Wall Mounted Digital Display DS-OF
Screen Size	75"
Type	LCD
Display Area	1650.2 ×928.3 (H×V) mm
Resolution	1920×1080p (3840x2160p optional)
Brightness	2000-2500 cd/m ²
Contrast	1200:1 / 4000:1 / 5000:1
Viewing Angle	178°(H) / 178°(V)
Chroma	16.7M
Life	≥50000 hours
Response Time	6.5ms
Cooling	Intelligent Direct Ventilation Heat Dissipation And Heating System
Material	Tempered Glass Panel + Sheet Metal Shell
Power Input	AC100-240v 50/60HZ
Operating Temperature	-10°C to 55°C
Working Humidity	10~90%RH
Waterproof Level	IP55 (IP65 optional)
SPD	Level 3 lightning protection
Decoding Resolution	Support 4Kx2K@60fps Decoding
Installation Method	Wall Mounted & Hanging
CPU	2G DDR3 (4G optional)
Memory	8GB,(32GB optional)
Function	Brightness Adjustment & Temperature Control
Speaker	System Built-In 2 x 10W(8Ω)
